

Attributable to NSO Group:

"Mr. Hubbard was not a target of Pegasus by any of NSO's customers.

"While this thesis is based on speculations, our findings are based on facts.

"FACT CHECK:

"In 2018 - such technologies as described simply did not exist in NSO.

"In 2020 and 2021 - These cases were not and could not have been related to Pegasus. Technical and contractual reasons and restrictions would have prevented Mr. Hubbard from being a target of Pegasus by any of NSO's customers.

"Continuing circulating these false and baseless allegations is outright defamatory.

"CitizenLab should share its forensics if they seek to prove that any allegation of connection to Pegasus is nothing other than an urban legend and a biased campaign.

"NSO Group has a zero-tolerance policy when it comes to misuse of its technologies, including and especially towards journalists, and we take very seriously any allegation in this matter.

"NSO Group develops life saving technologies used by law enforcement and intelligence agencies around the world to save lives, and we stand undeterred in this mission".
